

## REO SAC® - ONION BLADDER TANKS

**Waterplex produces a standard range of Onion tanks ranging from 5,000 to 25,000 litres**

Because no two applications are the same, a large number of the Reo Sac® Onion tanks manufactured are customised to suit a particular application or site.

The material used in the construction of Reo Sac® Onion tanks is determined by the nature of the end use and the type of liquid being stored. Typically reinforced material is used to ensure the strength and integrity required for large amounts of water storage. Reinforced material also provides greater resistance to abrasion and rough handling in the field.

**5000 LITRE ONION BLADDER**

**10000 LITRE ONION BLADDER WITH COVER**

**25000 LITRE ONION BLADDER**

**CARRY BAG**

### **Reo Sac® Onion tanks are self-erecting.**

A "floating collar" enables them to rise to the maximum fill height as they fill. The key advantage of a Reo Sac® Onion tank over a pillow tank is the ability to fill and empty it faster than a standard pillow bladder tank.

This is due to the large opening aperture within the floating collar.

The large opening also makes Onion tanks particularly easy to empty and clean.

The ability to ensure it is empty also makes it easier to pack and transport relative to a standard pillow tank.

### **The most common applications for Reo Sac® Onion tanks are:**

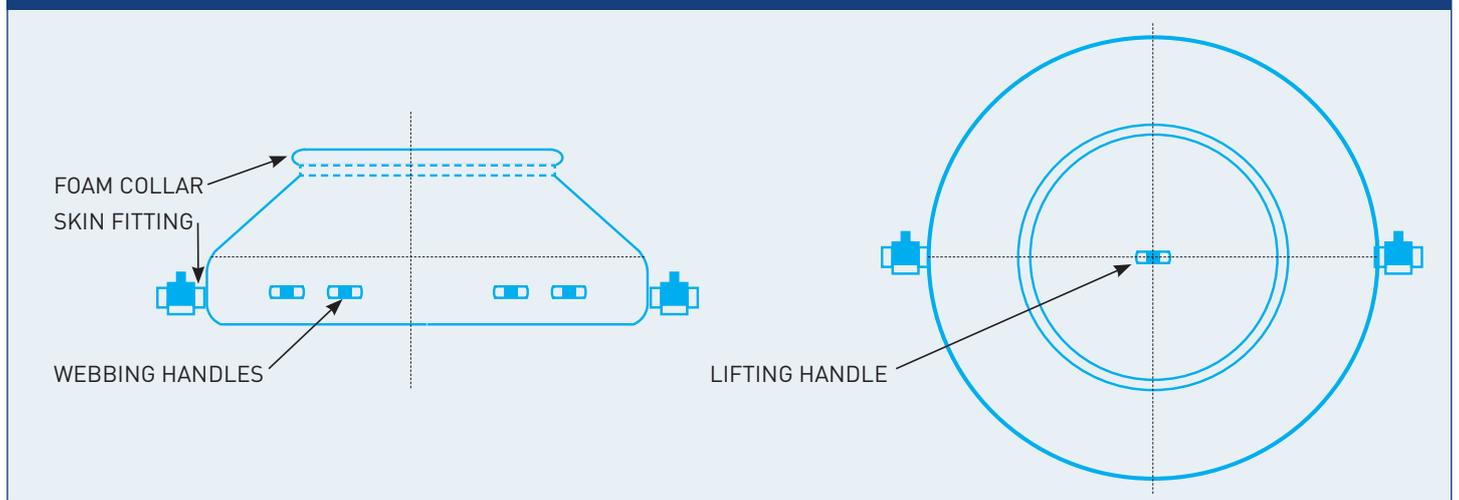

- Temporary liquid storage for maintenance of another storage tank
- Bushfire fighting
- Temporary containment of almost any waste liquids

## REO SAC® - ONION BLADDER TANKS

### Options available with Reo Sac® Onion tanks include:

- Protective collar covers to provide protection from sunlight and dust
- Groundsheets (reinforced or non-reinforced)
- Webbing handles for easy relocation
- A range of different fitting types and sizes depending on the requirement
- Carry bag

### ONION TANK PARTS

### REO SAC® ONION TANK CAPACITIES AND DIMENSIONS

#### FILLED DIMENSIONS

PART NO.	CAPACITY LTRS	X (MM)	Y (MM)	Z (MM)	WEIGHT (KG)
RSOT05	5,000	2,800	1,500	1,000	30
RSOT10	10,000	4,000	2,280	1,100	40
RSOT12	12,000	4,400	3,100	1,100	45
RSOT18	18,000	5,000	3,300	1,500	55
RSOT25	25,000	6,000	3,500	1,200	74
