

## STEEL - Round Tanks

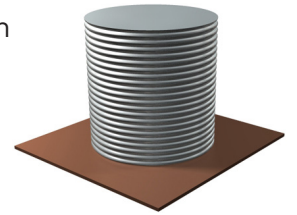

Waterplex® offer a range of over 5,000 steel slimline and round Bluescope® Aquaplate® rainwater tanks.

### Why choose a STEEL Round tank from Waterplex?

Domestic and commercial solutions up to 30,000 litres in a single tank

- over 2,000 sizes to choose from
- made using Bluescope® Aquaplate® steel
- available in all Colorbond® colours
- delivery to slab on site with a full range of accessories

### Stormwater Detention Solutions by Waterplex®

Waterplex® steel slimline and round water tanks are ideal for stormwater detention requirements. Fittings up to 150mm can be incorporated in the tank in the factory. Orifice plates and other detention required as specified by council or hydraulic consultants can also be factory fitted ensuring compliance and factory testing before the tank arrives on site.

Waterplex® steel tanks are manufactured in accordance with AS9001:2008 and are Housing NSW approved.

### Accessories

Waterplex offer a full range of accessories including pumps, mains water controllers, fire fighting fittings, tank stands, oversize inlet & overflow fittings and raised garden beds.

Call the team at Waterplex on **1300 72 66 70** for all your rainwater or stormwater storage requirements or visit [www.waterplex.com.au](http://www.waterplex.com.au)

Waterplex Flanged bolted 1 50mm water tank outlet fitting with 80mm orifice plate.
