LIQUID TRANSPORT SOLUTIONS

LiquA E-FLEX

E-FLEX - A tank designed to outshine its competition in the shipping process. With a higher capacity, ability to use almost any container, faster fitting process and guaranteed no bulging feature, E-Flex is the way to go if you're looking for the most cost-effective way to transport high volumes of liquid safely and efficiently.

PART NO.	VOLUME	SUITABLE CARGO	FILLING / DISCHARGE	REPEAT USE	USAGE / PREPARATION / STORAGE
E-FLEX	12,000 to 27,000 Litres	Almost Any Non-Hazardous liquid	Valve: bottom load. Patented No-Bulkhead design. Standard valve: 3" male camlock. 2" adaptor : On request.	NO	Ideal for juices, oils, and wines as well as chemicals.
PART NO.	VOLUME	SUITABLE CARGO	FILLING / DISCHARGE	REPEAT USE	USAGE / PREPARATION / STORAGE
E-FLEX WINE	26,000 Litres	WINE	Valve: bottom load. Patented No-Bulkhead design. Standard valve: 3" male camlock. 2" adaptor : On request.	NO	Ideal for all wine. Export 26,000 Litres Save 8% PLUS on Logistics
PART NO.	VOLUME	SUITABLE CARGO	FILLING / DISCHARGE	REPEAT USE	USAGE / PREPARATION / STORAGE
DUAL E-FLEX	Total: 23,000 Litres 10,000 Litres AND 13,000 Litres	Almost Any Non-Hazardous liquid. • Carry 2 products in a single container	Valve: bottom load. Patented No-Bulkhead design. Standard valve: 3" male camlock. 2" adaptor : On request.	NO	Ideal for juices, oils, and wines as well as chemicals.

ADVANTAGES:

E-Flex tanks are the highest capacity flexitank on the market. The 27,000 capacity allows for about 12% savings on overall freight costs thanks to the increased payload size. You can load base oils, palm oils, stearin, olein, soybean oil, olive oil, canola oil, vegetable oil, sunflower oil fish oil, used cooking oil and biodiesel making use of our high capacity flexitank. A common problem with flexitanks is that they put pressure on the sidewalls of containers, causing bulging. E-Flex supports the entire burden of the cargo by itself, so any container can be used to transport the E-Flex flexitank.

E-FLEX

LiquA L-FLEX

L-FLEX - A flexitank specifically designed for 40ft containers. After years of research, we have managed to provide a safe solution for transporting bulk liquids in 40ft containers.

PART NO.	VOLUME	SUITABLE CARGO	FILLING / DISCHARGE	REPEAT USE	USAGE / PREPARATION / STORAGE
L-FLEX	Up to: 26,000 Litres	Almost Any Non-Hazardous liquid.	Valve: bottom load. Patented No-Bulkhead design. Standard valve: 3" male camlock. 2" adaptor : On request.	NO	Ideal for juices, oils, and wines as well as chemicals.

L-FLEX

LiquA R-FLEX (20 FT)

R-FLEX - Transportation in reefer containers is not a straightforward process.

Reefer units tend to be fragile and need to be treated accordingly.

The R-Flex is built to accommodate that.

It's designed to provide a safe way to transport liquids such as juices and dairy in reefer containers.

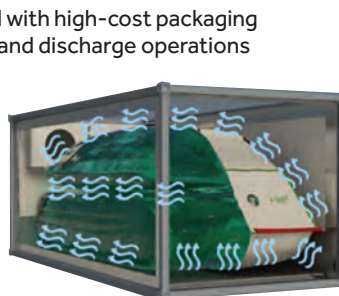

PART NO.	VOLUME	SUITABLE CARGO	FILLING / DISCHARGE	REPEAT USE	USAGE / PREPARATION / STORAGE
R-FLEX	12,000 to 22,000 Litres	Milk, Juice, etc, and other temperature sensitive products.	Valve: bottom load. Patented No-Bulkhead design. Standard valve: 3" male camlock. 2" adaptor : On request.	NO	Ideal for food products such as dairy and juice products as well as non DG chemicals that require chilling during transport.

ADVANTAGES:

The R-Flex allows you to avoid transportation costs associated with high-cost packaging materials such as bins and drums. With the R-Flex, the loading and discharge operations are much faster and require less labor. The R-Flex is also guaranteed not to damage the reefer container or bulge the sidewalls.

The residue left in the flexitank depends on the cargo and how the discharge operation is carried out. In the best case scenario, the residue left over can be as low as 20 litres/5 gallons for certain products such as lemon juice.

Our flexitanks are produced in a clean room environment. On top of that we also offer sterilisation using gamma radiation.

R-FLEX

LIQUID TRANSPORT SOLUTIONS

LiquA K-FLEX - Collapsible Drum IBC

K-FLEX - a low cost alternative for IBCs. It is easy to store as it is collapsed when empty. K-Flex is a good solution both for shipping and storage at about half the price of an IBC.

PART NO.	VOLUME	SUITABLE CARGO	FILLING / DISCHARGE	REPEAT USE	USAGE / PREPARATION / STORAGE
K-FLEX	220 to 2000 Litres PLUS Custom Sizes	Almost Any Non-Hazardous Products	Top Fill via 2" flange, Bottom Discharge via 2" flange and spike valve	YES - The outer fabric is reusable. We provide you with replacement liners to change each Load	<ul style="list-style-type: none"> • Use almost any type of non-hazardous liquid • No need to use pallets • 20 loaded K-Flex units fit into a 20ft (stacked 2 high) or 40ft (no stacking) container. Truck capacity: 20 loaded units (no stacking).

K-FLEX

- The outer fabric is made of polypropylene and the inner liner is made of polyethylene.
- We provide different models of K-Flex which are suitable for 20ft and 40ft containers, as well as for direct transport with trucks.
- K-Flex is built to be stable for safe and easy transport. Some models of the K-Flex are even stackable.
- You can transport almost any type of non-hazardous liquid.
- There is no need to use pallets with the K-Flex. It is designed to be able to stand on its own. However you can use it if you want to.

K-FLEX

LiquA BITUMEN BAG

BITUMEN BAG - Bitumen is a crucial resource for many manufacturing purposes. Transporting bitumen isn't easy. Our specialised bitumen bags are designed to carry bitumen safely and allow for easy loading and easy melting process.

PART NO.	VOLUME	SUITABLE CARGO
BITUMEN BAG	1100 LT model and a 1300 LT model. Custom Sizes available	Bitumen

LiquA BIG BAG

PART NO.	VOLUME	SUITABLE CARGO	FILLING / DISCHARGE
BIG BAG	Designed for use with 20ft and 40ft shipping containers	Bulky, granular, or powdered products	Designed to your specification

BIG BAG

Our bags are designed to be more durable and stable than our competition. With our bags, it's possible to load more volume in containers by stacking multiple bags on top of one another. Can be used for solutions that require modified atmosphere packaging. Example: nuts, grains, coffee.

BIG BAG

LAD-2 LIFT-A-DECK

The Lift-A-Deck 2 (LAD-2) system aims to improve operator safety and productivity. It was developed and manufactured in the United States to find the solution to today's transport challenges. It features a high-strength design that is easy to configure and delivers exceptional performance, creating multiple decking platforms for palletised freight. The system starts with a solid foundation of narrow, low-profile, aluminium aircraft-style cargo track. The track's sloping shoulders reduce the chance of forklift damage and attach to the trailer's vertical structural posts every 16 or 24 inches, becoming an integral part of the sidewall structure.

Beginning with your truck interior, we customise unique track configurations to suit your needs. Beams are easily moved by one operator and pushed to the roof for secure storage when not in use. The tracking system fits most trailers and the beams are so versatile that they adjust in one-inch increments.

There are a wide range of accessories to suit your needs such as beam stops, release bars, stud tie-offs, brackets and more safety items to assure you are in safe hands.

Trailer system utilising both the Lift-A-Deck System and the Retract-A-Roll system.

PART NO.	DESCRIPTION	RANGE	WORKING LOAD LIMIT
49414-25	STANDARD LAD-2 BEAM WITH STANDARD FOOT AND CHANNEL. (WLL: 999KG-CONSULT 2ND DECK)	ADJUSTMENT RANGE: 237.49cm to 263.53cm	WLL: 1/3 OF BREAKING STRENGTH CAPACITY AND BASED ON EVENLY DISTRIBUTED LOADS

PART NO.	DESCRIPTION	
50059-24-72.00	LAD-2 TRACK OPTION - LOW PROFILE SINGLE ROW - FLANGED S-TRACK - 72 INCH (182CM)	<p>PROFILE</p> <p>4.0"</p> <p>72"</p> <p>Pitch 10"</p>

PART NO.	DESCRIPTION	
50073-15-72.00	LAD-2 TRACK OPTION - LOW PROFILE DOUBLE ROW - FLANGED S-TRACK - 72 INCH (182CM)	<p>PROFILE</p> <p>3.5"</p> <p>3.25"</p> <p>6.5"</p> <p>72"</p> <p>Pitch 10"</p> <p>0.26"</p>

- Beams have a decking working Load Limit of 999kg
- Beams easily moved by just one operator
- Beams can be positioned in 1" increments for utilisation of space
- Internal locking mechanism helps protect against forklift damage
- Widest Choice of track types to meet every application
- NO track lubrication is required

- Offset foot beams allow for beam storage at ceiling height
- Beam access slot is provided as standard for all tracks for easy beam removal and replacement
- Standard track length is 72" (182cm) being 16" (40cm) loadable
- CUSTOM lengths and an installation manual available upon request

RAR-4 RETRACT-A-ROLL 4

FREIGHT GLIDES ON AND GLIDES OFF.
RAR 4 - IS A PNEUMATIC ROLLER TRACK SYSTEM

EASIEST CARGO LOADING IN YOUR TRAILER

Ancra's next generation pneumatic roller floor system uses retractable rollers to lift and slide containers to speed turnarounds. Loading and unloading is quicker, reducing handling time and lowering labor costs. Available for air freight or palletised freight, the system instantly converts back to a flat floor for general freight.

LIGHT WEIGHT, HEAVY DURABILITY

Steel top plate and rollers fend off forklifts. Lower sections are aluminum to reduce weight. All parts are easily accessed for inspection or repair. System is powered by pneumatics off the truck's existing air supply. Sealed bearings in skate wheels have lower rolling resistance and longer lifespan.

EASY TO OPERATE

Low pressure pneumatic system runs off your truck's air supply. No other air supply is needed.

EASIEST TO MAINTAIN

Hi-strength, 11-gauge stamped, interlocking steel top plates are easy to remove for maintenance, only being held in place with two screws.

QUICKER

Faster air bag deflation

FAST OPERATION

Large 3/8" Air Lines Allow for the Quickest Inflation/Deflation on the Market

EFFORTLESS

Improved roll resistance of the Dual Skate Wheels

DUAL SKATE WHEEL

Roller opening
 Smaller opening in the top plate keeping debris from falling through

AutoDeck AUTOMATIC TRAILER DECKING SYSTEM

Ancra Cargo introduced AutoDeck, an automated integrated decking system, which allows loading dock staff and drivers to automate the height of each beam at the push of a button for customised decking solutions.

Decking at the push of a button

Advanced system that improves freight loading efficiency, reduces damage freight claims and maintenance costs, and improves driver and forklift operator's safety & satisfaction.

FASTER

- Beams are adjusted remotely. Forklift operator stays on forklift
- Load a truck 20% faster than with manual systems
- Efficient loading time improves customer service
- Reduced load cost per shipment

RELIABLE

- System will cycle up to 50 times on one battery charge
- AutoDeck will operate manually in the absence of power
- Rugged design means similar maintenance costs as manual systems

SAFER

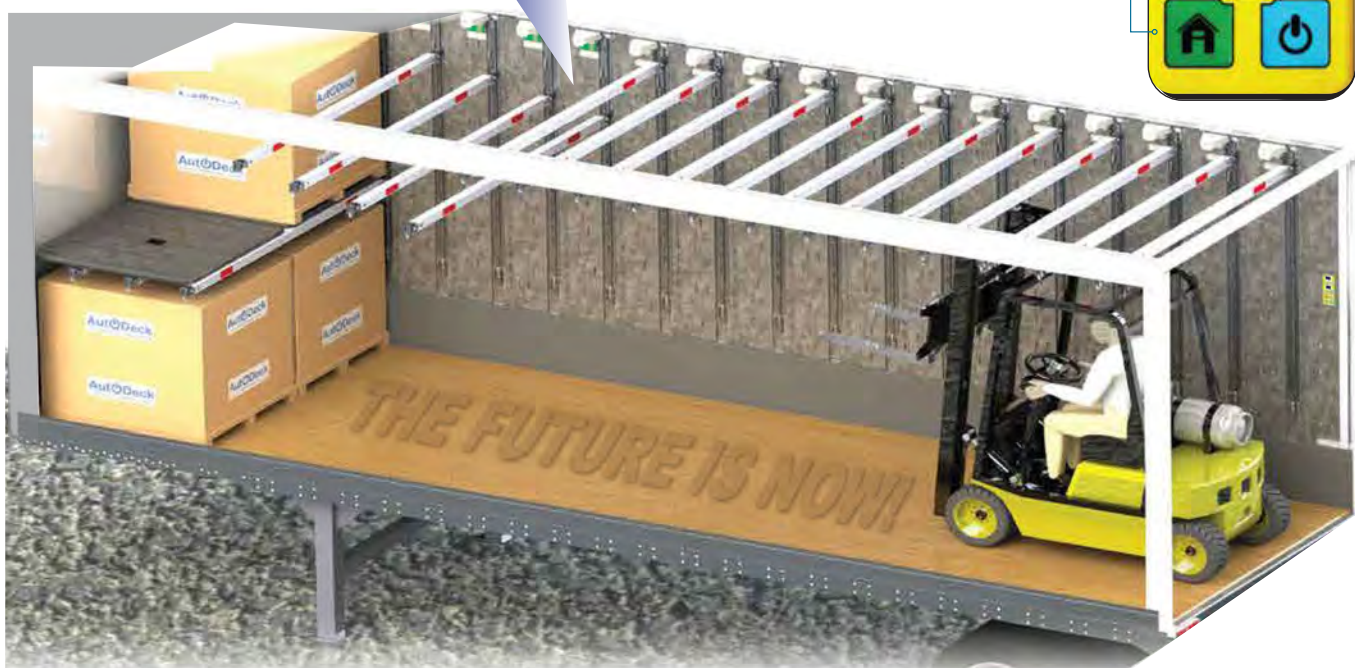

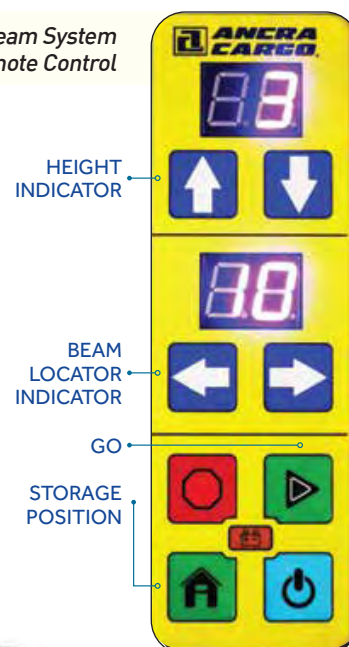

- No need to climb over freight to move beams
- Eliminate damaged freight caused by adjusting beams
- Beams disconnect from drive mechanism when contacting freight or persons to prevent damage or injury

EASIER

- Beams move into place at the push of a button
- Improved system utilisation increases revenue
- Trailer up time increased through proper system use

Automated Beam System
controlled by Remote Control

LOAD RESTRAINT STRAPS

COMPLIES WITH AS/NZS 4380-2001& AS/NZS 4344-2001

PERFECT FOR SECURING GENERAL FREIGHT OF ALL TYPES.

Ancra Ratchet Buckle Loadbinders are made from the highest quality steel and passivated to resist abrasion and rust. Standard straps are fitted with wearsleeves and complete with quality fittings. The ratchet standard action adjusts the strap tension for a secure load when in transit. Select from our quality Ancra Range and/or our Premium Secure-A-Load Range.

ANCRA CARGO CUSTOM MADE STRAPS

We design and manufacture load restraint equipment specifically for your company.

LASHING CAPACITY - Ancra's products are independently tested and rated to meet the Australian and New Zealand standard AS/NZS 4380.2001. Ratings can range from 30-5,000kg plus.

WEB SIZES/ LENGTHS - Ancra produce webbing straps in: 25mm, 35mm, 44mm, 50mm, 75mm right through to 100mm and they can be customised to suit your requirements. Ranging from a 300mm strap, through to 9M and 11M straps on flatbed trailers, to the fully customized strap reaching 100mm x 40m and above.

AVAILABLE TO ORDER ONLINE AT:
www.ancdist.com.au

COLOURS - Ancra is able to customize webbing straps for clients throughout Australia by offering a diverse range of colours. Choose from white, red, blue, green, yellow, black, orange and army green - to name just a few. We are also able to match corporate colours with webbing colours.

FITTINGS - Ancra supply an assorted range of hardware fittings that enhance and personalise webbing straps to meet the exact load restraint requirements of our clients. We have designed many new and unique fittings through our close relationships with our suppliers and clients.

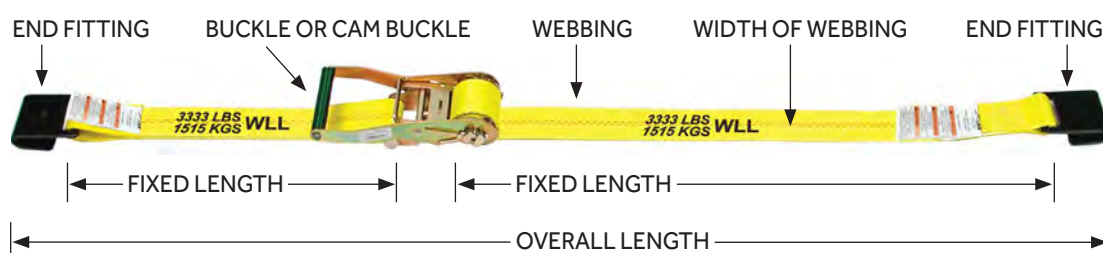

We design and manufacture load restraint equipment specifically for your company.
Simply choose from this simple 6 step process to build your own strap. Minimum quantities apply.

1. What is the required rating for the strap?
2. What length and width do you require the strap?
3. What colour strap would you like?
4. Type of fitting required to secure the load?
5. Do you require protective sleeves on the strap?
6. Would you like stencilling on your strap?

ANCRA CARGO ANATOMY OF A RATCHET STRAP

Length: The distance between extreme end bearing points of the web tiedown assembly, including the fittings. Standard fixed end length is 18" (3" for chain anchor straps). This puts the ratchet in

an optimum position on the side of your trailer for driver tensioning. Handholds are typically 6" in length and can be sewn to prevent the webbing from sliding back through the buckle or winch.

LOAD RESTRAINT CAR CARRYING

COMPLIES WITH AS/NZS 4380-2001& AS/NZS 4344-2001

PERFECT FOR SECURING GENERAL FREIGHT OF ALL TYPES.

Ancra straps are of the highest quality for securing general freight of all types. All of our Ratchet Tiedown straps are designed, manufactured and tested for compliance with AS/NZS 4380:2001.

49796-10	7.3 - 10mm LOADBINDER (LEVER TYPE)	7.3 - 10mm	c/w Winged Grab Hooks each end	6000 kg

49796-10

CHAIN LOADBINDERS: We supply the standard lever and ratchet type of Chain Loadbinder. These are made to comply with AS/NZ4344 - 2001. Loadbinders are forged and tempered with Winged Grab Hooks

which allows for maximum lashing capacity. Winged grab hooks have cradles on both sides of the outer jaws, preventing any deformation to the chain during tensioning.

LOAD RESTRAINT WINCHES

COMPLIES WITH AS/NZS 4380-2001& AS/NZS 4344-2001

PERFECT FOR TRAILER & TRANSPORT APPLICATION.

More than 50 years of quality workmanship. All of our winches have a long life-span. Featuring seamless solid-steel mandrels, high strength alloy pins which are passivated to resist abrasion and rust. Our tie down straps offer unsurpassed performance, quality and dependability. They come with Protective Sleeves for further abrasion resistance. All components and assemblies are engineered from high quality materials and the webbing is constructed from advanced performance nylon and polyester. Complies with AS/NZS4380.

SureTemp® INSULATION SOLUTIONS

PART NO.	TYPE	SIZE	MATERIAL LAYERS
----------	------	------	-----------------

PALLET COVERS

SureTemp® Prime - Performance Embossed Metalized Pallet Cover is designed to provide short-term protection of products against low duration exposure of extreme temperatures during the shipping cycle at origin, destination, and at trans-shipment points. The outer layer of the SureTemp® Prime Performance Embossed Metalized Pallet Cover is made of reflective metalized film, which protects against solar radiation. Inside is an advanced non woven PET Core insulation sealed in by a layer of clear polyethylene.

STP-PRIME1.2	PRIME: EMBOSSED / METALISED	1.2m x 1.2m x 1.2m	EMBOSED METALISED FILM NON-WOVEN POLYETHYLENE
STP-PRIME1.5	PRIME: EMBOSSED / METALISED	1.2m x 1.2m x 1.5m	EMBOSED METALISED FILM NON-WOVEN POLYETHYLENE

SureTemp® Premium-Performance Metalized Pallet Covers are mid-performance pallet covers that shippers turn to when looking to minimize temperature excursions and maintain cold chain for Air & LTL shipments. The outer layer of the SureTemp® Premium-Performance Metalized Pallet Cover is made of reflective metalized film, which provides protection against solar radiation. Inside is an advanced single layer bubble insulation between two layers of clear polyethylene, designed to reduce heat transfer through conduction.

STP-PREMS1.2	PREMIUM S: METALISED SINGLE BUBBLE	1.2m x 1.2m x 1.2m	METALISED FILM CLEAR POLYETHYLENE TRAPPED AIR POLYETHYLENE
STP-PREMS1.5	PREMIUM S: METALISED SINGLE BUBBLE	1.2m x 1.2m x 1.5m	METALISED FILM CLEAR POLYETHYLENE TRAPPED AIR POLYETHYLENE

SureTemp® Premium-Performance Metalized Pallet Covers are Premium pallet covers that shippers turn to when looking to minimize temperature excursions and maintain cold chain for Air & LTL shipments. The outer layer of the SureTemp® Premium-Performance Metalized Pallet Cover is made of reflective metalized film, which provides protection against solar radiation. Inside is an advanced dual layer bubble insulation between two layers of clear polyethylene, designed to reduce heat transfer through conduction.

STP-PREMD1.2	PREMIUM D: METALISED DOUBLE BUBBLE	1.2m x 1.2m x 1.2m	METALISED FILM x 2 CLEAR POLYETHYLENE x3 TRAPPED AIR POLYETHYLENE x2
STP-PREMD1.5	PREMIUM D: METALISED DOUBLE BUBBLE	1.2m x 1.2m x 1.5m	METALISED FILM x2 CLEAR POLYETHYLENE x3 TRAPPED AIR POLYETHYLENE x2

CONTAINER LINERS

SureTemp® Premium Performance Metalized Container Wall Liner with trapped air technology is an economical passive temperature protection liner for sidewall protection against heat & cold in your cold chain. It is designed to provide short term protection of products against low-duration exposure of extreme temperatures. The outer layer is made of reflective metalized film, which protects against solar radiation. Inside is an advanced single (STP-ROLL-S) or Double (STP-ROLL-D) layer bubble insulation between two layers of clear polyethylene, designed to reduce conductive heat transfer.

STP-ROLL-S	PREMIUM S: METALISED + SINGLE BUBBLE	50m x 1.5m	METALISED FILM CLEAR POLYETHYLENE x2 TRAPPED AIR POLYETHYLENE
STP-ROLL-D	PREMIUM S: METALISED + DOUBLE BUBBLE	50m x 1.5m	METALISED FILM x2 CLEAR POLYETHYLENE x3 TRAPPED AIR POLYETHYLENE x2

SureTemp® Prime Transoceanic Container Liner with pure aluminum and metalized PET is our most reliable passive temperature protection liner designed for full container cold chain protection. This liner is designed to safeguard your cargo from a range of possible damages that can occur during overseas shipping. An effective radiant barrier is attained through the outer layer of pure aluminum, which is the highest protection against both visible light and infrared radiation. Aluminum's lower emissivity value makes this product an efficient and protective buffer against extreme temperatures. Thermal Protection: Specifically engineered to provide radiant heat transfer protection from extreme heat. Provides excellent protection against temperature excursions in extreme hot ambient temperatures.

STP-LINER5-20	PRIME: 5-SIDED LINER	20FT LINER - WITHOUT FLOOR C/W DETACHABLE BARS	PURE ALUMINIUM WOVEN POLYETHYLENE METALISED FILM
STP-LINER5-40	PRIME: 5-SIDED LINER	40FT LINER - WITHOUT FLOOR C/W DETACHABLE BARS	PURE ALUMINIUM WOVEN POLYETHYLENE METALISED FILM

STP-LINER6-20	PRIME: 6-SIDED LINER	20FT LINER - WITH FLOOR C/W DETACHABLE BARS	PURE ALUMINIUM WOVEN POLYETHYLENE METALISED FILM

CONTAINER BLANKETS

SureTemp® Elite-Performance Container Blanket offers the highest level of protection during product exposure to extreme temperatures. Designed for FTL/FCL top load protection against both cold and heat in your cold chain. An effective radiant barrier is attained through the outer layer of metalized film, which protects extremely well against visible light radiation, as well as moderate thermal protection from infrared radiation. Inside is our hollow-fiber insulation - the SureTemp® brand's highest level of insulating material - between woven polyethylene layers. Woven polyethylene's high tensile strength and tear-resistance give the product additional physical protective capabilities and contribute to its durability and reusability.

TERMS AND CONDITIONS OF SALE

1. **Exclusion of other Terms and Conditions:** The following terms and conditions shall apply to the sale of all products by ANC DISTRIBUTION Australia Pty. Ltd. ("the Company") to the exclusion of any and all terms and conditions in any documents submitted to the Company by the Customer whether prior to or following the Customer's receipt of these terms and conditions.
2. **Basis of Acceptance of Quotation:** All quotations verbal or written are based on information provided by the Customer (or by third parties on its behalf). Any extra cost or expense arising from incorrect information shall be paid by the Customer.
The company will use its best endeavours to meet specified delivery dates and must notify the Customer as soon as it becomes aware that it will be unable to meet a previously advised delivery date but the Company will be under no liability of any kind (whether for breach of contract, negligence or otherwise) for any delay in delivery from any cause.
3. **Prices:** Any quotation submitted or any price set out in any price list is based upon the cost of labour and materials current at the date of the price list or quotation. The Company may at its discretion increase any price at any time to reflect changes in the cost of labour and materials and manufacturing overheads and will provide the Customer with a minimum of 30 days notice of the date such price increases are to become effective. Any orders placed by the Customer to the Company within this notice period will be honoured at the price applicable before the notification of the increased price.
4. **Terms of Payment:** Unless the Company in its discretion agrees to accept payment for products on other terms, the Customer shall pay for all products delivered by the Company within 30 days from the last day of the month in which the invoice is dated.
5. **Literature and Suitability of Products:** The Customer shall be responsible for determining the fitness of the Company's products for the purpose for which they are intended for use by the Customer, and acknowledges that the Company is not aware of that purpose unless the Customer communicates the intended use to the Company in writing and in that situation the Customer can rely on the Company's advice. It is specifically acknowledged that the Company provides installation information for some products and that the Customer can rely on that information and those guides.
6. **Claims:** All products sold will be deemed to be of required quality and type unless a claim specifying particulars of deficiencies or incorrect type is received by the Company within 30 days after receipt of products by the Customer.
7. **Returns and Cancellations:** Orders can only be cancelled or products returned with the prior written agreement of the Company. Returns due to client error will incur a restocking charge of 15% of the invoice price. Returns due to ANC DISTRIBUTION Australia Pty. Ltd. error will not incur a restocking charge. Products accepted for return due to a Customer error must be despatched at the Customer's cost. Products accepted for return due to an ANC DISTRIBUTION Australia Pty. Ltd. error will be despatched at the Company's cost.
8. **Delivery:** Cost of delivery from our store to the Customer's nominated point will be at the Customer's cost, unless prior arrangement to the contrary.
9. **Insurance:** Products supplied will be insured by the Company up to the point of receipt at the Customer's nominated delivery address.
10. **Title of Goods:** Full legal and equitable title in each product supplied will remain vested in the Company until the Company has received payment in full of all amounts owing by the Customer to the Company on an account whatsoever. The Customer shall have the right to sell products in which title remains vested in the Company in the ordinary course of trade. Until title in the products passes to the Customer or the products pass to the Customer or the products have been sold by the Customer in the ordinary course of trade, the Customer acknowledges that it is in possession of the product solely as fiduciary bailee for the Company, and in that capacity, will store the products separately from the Customer's own goods and those of any other person, in a manner which renders the products purely identifiable as the property of the Company. The Purchaser hereby irrevocably gives the seller, its agents and servants, leave and licence without the necessity of giving any notice to enter on and into any premises occupied by the Purchaser to search for and remove any of the goods supplied to or in which the seller has ownership as aforesaid without in any way being liable to the Purchaser or any person or company claiming through the Purchaser, if:
 - (a) (if the Customer is a corporation) the Customer commences to be wound up, or is placed under official management, or a receiver is appointed in respect of, or any encumbrancer takes possession of, its undertaking or property or any part thereof, of the Customer is unable to pay its debts; or
 - (b) (if the Customer is a natural person) the Customer becomes insolvent or bankrupt, or commits an act of bankruptcy or makes an assignment for the benefit of a creditor or creditors; or
 - (c) the Customer fails to pay the whole of any part of the purchase price or transport or other charges for any products supplied by the Company when due and payable.
11. **Test Certificates:** Test Certificates will only be supplied if requested at the time of ordering. A test certificate issued by the Company in respect of a product will not constitute a warranty by the Company as to the quality, suitability or characteristics of the product or the fitness of that product for any purpose.
12. **Dimensions:** Lengths and weights are subject to usual commercial tolerances.
13. **Suspension:** If, at the Customer's request, the Company suspends work the subject of an order for more than 30 days, the Customer shall pay the Company for the work performed prior to the suspension, and for usual materials procured of the order, within 30 days of receipt of an invoice for such work and for materials from the Company.
- 14.1 **Liability:** The Company warrants that its products will be free of defects caused by the default or neglect of the Company. If any product supplied by the Company is defective, the Company's liability in respect of such product will be limited to, at the Company's sole discretion:-
 - (a) the replacement of the product or the supply of an equivalent product;
 - (b) the payment of the cost of replacing the product or obtaining an equivalent product;
 - (c) the repair of the product; or
 - (d) the payment of the cost of repair of the product.

Except as provided above, the Company will not be liable in any way whatsoever (whether in contract, negligence or otherwise) for the injury, loss, damage, claim, action or proceeding suffered or incurred by or made or brought against the Customer and directly or indirectly cause or contributed to by a defective product, the Company's negligence or any breach of contract.
- 14.2 Except as provided in this clause no warranty is given in respect of any product and the Customer acknowledges that no warranty has been given by or on behalf of the Company. All statutory warranties negated to the maximum extent permitted by law.
15. **Law:** The law of Victoria shall apply to all contracts for the supply of products by the Company to the Customer. To the extent that any applicable law of any State or of the Commonwealth of Australia which cannot be excluded affects the applicability or validity of any of the foregoing conditions, the conditions shall be read and construed as being subject to such law.
16. **Warranty:** All ANC DISTRIBUTION Australia Pty. Ltd. products are warranted to be free from defects in material or workmanship for the warranty period associated with each product. Please consult the warranty card applicable to your product or an ANC DISTRIBUTION Australia Pty. Ltd. representative for details. During the warranty period ANC DISTRIBUTION Australia Pty. Ltd. will at its option repair or replace without charge any products or part thereof found to be defective in material or workmanship. This warranty does not extend to any product which has been subject to misuse, abuse, negligence, accident, alteration or unauthorised repair. Goods supplied by us but manufactured by others will be warranted only to the extent of the manufacturer's warranty. Defective products must be returned to ANC DISTRIBUTION Australia Pty. Ltd. 250 Governor Road, Braeside, Vic, 3195 within the above period, transportation prepaid, ANC DISTRIBUTION Australia Pty. Ltd. will bear the cost of return transportation.

THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES EXPRESS OR IMPLIED INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE. IN NO EVENT WILL ANC DISTRIBUTION AUSTRALIA PTY. LTD. BE LIABLE FOR SPECIAL OR CONSEQUENTIAL DAMAGES OR LOSS OF VEHICLE, CARGO OR PROFITS.
